**Dates:**

03. - 04.05.2008

## **How to register**

Each course will allow a maximum of 20 participants. Registrations will be accepted on a first come first serve basis, however, EANM members will be given relative priority. Please download and print out the registration form from our homepage [www.eanm.org](http://www.eanm.org); Education/ESNM; Educational Facility and fax it back to the EANM-secretariat.

## **Goals and curriculum**

EANM has established the educational facility in order to provide the highest standard of education. A renowned faculty was asked to prepare power point presentations and case studies to cover all courses offered by the EANM.

At each course instructors will cover the presentations in “classroom style” in the lecture room. There will also be ample time for participants to view case studies in 4 viewing rooms, equipped with state of the art multipurpose viewing stations as well as with workstations by all three major manufacturers of PET/CT equipment.

For further information on the EANM courses please contact:
