2011 Learning Courses at the EANM Educational Facility

Since the foundation of the EANM Educational Facility in 2003, starting with PET courses for clinicians, a wide variety of courses were established:

1. **Basic Learning Course on PET/CT in Oncology**
2. **Advanced Learning Course on PET/CT in Oncology**
3. **Basic Technologist PET/CT Course**
4. **Advanced Technologist PET/CT Course**
5. **Radionuclide Therapy-Dosimetry Course**
6. **Cardiovascular Learning Course on Myocardial Perfusion Imaging & Gated SPECT**
7. **Paediatric Nuclear Medicine Course**
8. **Neuroimaging Course**
9. **Joint EANM/ESTRO Educational Seminar on PET in Radiation Oncology**

The range of languages in which courses are offered has also been expanded, so that the Educational Facility now boasts courses in **English, German and Russian**.

Since 2003, the EANM Educational Facility has hosted

- **126 Learning Courses**
- **with 1.693 participants**
- **from over 60 countries**

and will continue this success story in the future!

At this point we want to thank all EANM Committee members for their effort in supporting the courses and the Educational Facility. Without their help it would not be possible to continuously update and improve the courses.

We are proud that we can present you with the list of the 2011 EANM Learning Courses well ahead of time.

EANM/ESTRO Educational Seminar on PET in Radiation Oncology, in Brussels	February 05 - 06
Cardiovascular Course	February 19 - 20
Course on PET/CT in Oncology, basic	March 10 - 12
Technologist PET/CT Course, basic	March 19 - 20
Radionuclide Therapy –Dosimetry Course	April 28 - 29
Course on PET/CT in Oncology, advanced	May 05 - 07
Neuroimaging Course	May 14 - 15
Technologist PET/CT Course, advanced	May 21 - 22
Course on PET/CT in Oncology, basic	September 01 - 03
Technologist PET/CT Course, basic	September 10 - 11
Cardiovascular Course, in German	September 17 -18
Paediatric Course	November 05 - 06
EANM/ESTRO Educational Seminar on PET in Radiation Oncology	November 19 - 20
Technologist PET/CT Course, advanced	November 26 - 27
Course on PET/CT in Oncology, advanced	December 01 - 03

Outline of the courses

At each course, instructors specialized in the relevant topic; cover the presentations and case studies in "classroom style" in the lecture room. Each course includes ample time for participants to view case studies in 4 viewing rooms, equipped with state of the art multipurpose viewing stations by Hermes, GE, Siemens and Philips.

All learning courses (except Technologist courses) are accredited by the European Accreditation Council for Continuing Medical Education (EACCME). By virtue of a reciprocal agreement between EACCME and the American Medical Association (AMA), the credits granted by EACCME are recognized as the Physician's Recognition Award by the AMA.

How to register

Each course will allow a maximum of 20 participants. Registrations will be accepted on a first come, first served basis; however, EANM members will be given relative priority. Please download and print out the registration form from our homepage www.eanm.org; Education/ESNM; Educational Facility Courses and fax it back to the EANM Educational Facility. All Courses will be held at the EANM Educational Facility in Vienna and in English; except where otherwise indicated.

The course organizers and the EANM Educational Facility are looking forward to welcoming you!
